

ABSTRACT AMENDMENT(S)

Please amend the abstract as follows:

The invention relates to an assembly of a protection cover and a circuit board ~~comprising~~ including one or more optical conductors. The optical conductors are embedded in said circuit board, said circuit board ~~comprising~~ including an optical cavity exposing at least a part of said embedded optical conductors and said protection cover is adapted to use said optical cavity as a reference. The invention further relates to a protection cover and a circuit board for use in the assembly.
